

ZIRCON 880 PRO 8K/8K

WIRELESS GAMING MOUSE

PRODUCT FEATURES:

- Two 32-bit chipsets, optimized for the PAW3950 sensor, enable full exploitation of its extreme performance, guaranteeing stable 8K reporting in wired and wireless modes.
- An 8000 Hz (8K) reporting rate ensures ultra-fast responsiveness, smooth tracking, and precise motion mapping, giving you a significant advantage in dynamic FPS games and e-sports, especially on 180–360 Hz monitors.
- The flagship PAW3950 sensor provides perfect control and precise tracking of every movement, even during very fast maneuvers.
- Four sensor modes let you adapt the mouse to your style—from maximum performance to extended battery life.
- The ergonomic shape for right-handed users ensures a secure grip and natural hand position, increasing comfort and precision during long sessions.
- The lightweight design allows for faster and more dynamic movements, reducing wrist strain and improving responsiveness in key moments of gameplay.
- Triple connectivity with 2.4 GHz, Bluetooth, and USB allows quick switching between modes and complete freedom to play without delays.
- The latest generation of Kailh optical switches provide ultra-fast response times and reliability you can count on for a long time.
- Glass sliders with minimal friction guarantee exceptionally smooth mouse movement, which translates into faster reactions and greater precision in dynamic games.

PRODUCT SPECIFICATION:

Communication	Wireless, Wired
Interface	2.4 GHz, Bluetooth compatibility, USB
Sensor model	PixArt PAW3950
Maximum resolution	up to 30 000 DPI
Number of buttons	6
Range	10 m
Buttons lifetime	150M
Acceleration	up to 50 G
Sampling frequency	8000 Hz
Maximum tracking speed	750 inch/s
Software	Yes
Dimensions	125 x 65 x 42 mm
Weight	64 g
